

HELO CASE STUDY - NOVOTEL EXCEL : LONDON

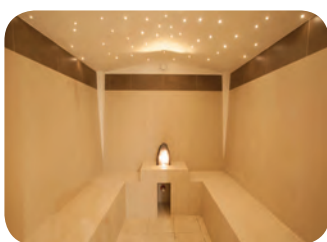

CLIENT: Accor
SITE: Novotel London ExCel
PROJECT: Novotel ExCel

Helo have recently completed the installation of a new sauna and steam room at the Novotel Excel as part of an ongoing improvement program to their wet leisure facilities.

The new rooms are contemporary styled, utilising subtle underbench and underseat lighting in both rooms. Wide glass doors allow easy, inclusive access for all.

GENUINE SAUNA & STEAM

PROJECT - NOVOTEL EXCEL

A: Steam room

The steam room features the Helo Wellness system, providing steam, fresh air and fragrance for a superb environment. The room is tiled in large format tiles with epoxy grouting for an attractive, easily maintained room. Impressive 1200 x 600 tiles are used for the bench and sloping backrest for a comfortable seating position.

B: Sauna

The sauna features the Rocher heater holding a large capacity of stones which provides warm, comfortable, radiant heat and is excellent for infusion. The seating has triple tiers to provide the option of different temperature zones within the sauna.

C: Quartz Crystal

The quartz crystal steam feature adds an opulence to the steam area.

D: Lobby

A compact lobby area creates the perfect frame to Helo's inviting sauna and steam rooms.
