

**HELO: WELLNESS & HERITAGE, EXPERTLY BROUGHT TOGETHER.**

Helo UK Ltd recently completed the refurbishment of the health suite at the English Heritage listed Ironmonger Row Baths in Islington, London.

A series of large, spacious thermal rooms within a traditional layout in the basement, the installation features two steam rooms. One, a Hammam style with a centrally heat slab and middle eastern fragrances, the other, a smaller room with fruit fragrances and colour change lighting.

We also installed two saunas: A Herb sauna with automatic water and essence infusion, and a low-temperature, high-humidity Vitality sauna with fresh, seasonal essences. Behind-bench heaters with a feature rock wall and underbench lighting complete the aesthetics in both rooms.

The health suite itself featured a large marble ice bowl, Adventure shower, heated slabs and benches and a traditional hot room with graduated heating. The “pay for play” area included an automated Rasul with steam, dry heat, showers, enhanced mist with music and light and a Vis-a-vis relaxation tub with sound and pulse modules.
