GENUINE SAUNA & STEAM

PROJECT: 21 WAPPING LANE

A: Sauna

The sauna is Clad in Thermo treated Aspen, laid Horizontally, to create an illusion of greater space. A concealed behind bench heater with automatic infusion tantalises the senses upon entry whilst visually the bather is drawn to the slate feature wall and mood lighting.

B: Steam Room

Full height glass to the steam facia as well as the sauna both invites users and showcases the contemporary design of this steam room. With its floating bench concept, under bench illuminations and specialist tiling, this steam room is set to impress!

C: Vitality Pool

The bespoke Vitality Deck Level Spa includes 4 fully Integrated Loungers with Air Injection and seating for 6. It features Multiple Mini Jets for an overall massage, and a fully Integrated Versuvius Bubble Pad Air Box, around the floor, incorporating Air Injection for the that extra massage beneath the Feet.

Tiled in Jungfrau 20mm x 20mm Glass Mosaic tiles for the Main Body with Mont Blanc Pin Lines. The Teak Topped Grating caps off the Overflow Channel, to complete a spectacular Visual Effect.
